

5G Strategy and Agenda

Smart Meters

NOTE: Average Smart Meter (4G) is ~7 gigahertz. Airport security scanning machines are ~10 gigahertz.

The following is the “frog in the pot of boiling water” scenario, where the frog is placed into a pot of water and the heat is gradually turned higher and higher and the frog is paying no attention to the rising temperature until it is too late to jump out, and the frog then dies.

Day 1 (October 28th)

Meter 10 gigahertz – People are not noticing that their smart meter has been slightly cranked up.

Day 7 (November 4th)

Meter 20 gigahertz – Some people are now noticing change in frequency but do nothing.

Day 10 (November 7th)

Meter 35 gigahertz – At this frequency, electrons on oxygen are spinning and people begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus.

Day 10-14 (November 7th thru 11th)

Meter 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, the majority (~75%) of people are dead.

Day 15-18 (November 12th thru 15th)

Meters 50 gigahertz. By Day 16 ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, life is still surviving. (People living on the fringes of the “safe” zone are now dead.) People living deep inside the “safe” zones, may not know it, but they are now trapped inside the “kill” zone.

Day 19 (November 16th)

“Kill” zone meters cranked up to 60 gigahertz. There are people still alive deep inside the “safe” zones inside the “kill” zone. They believe they are still safe. The 60 gigahertz frequency surging through the “kill” zone smart meters causes mass explosions and all the houses and buildings in the “kill” zone burst into flames and are reduced to ashes. People deep inside the “safe” zones are absolutely terrorized (planned agenda) out of their wits as they witness the “kill” zone holocaust. (fulfillment of Nostradamus prophecy)

Day 20-21

(See Cell Towers Agenda for how people in the “safe” zones die.)

Go to Tower Agenda (next page)

Cell Towers

Day 1-9 (October 28th thru November 6th)

Cell towers in the “kill” zones 10 gigahertz. People are experiencing effects, for example, ringing in ears, headaches and other signs of the 4G. Some may complain but the majority of people will go on with their daily lives. Cell towers in the “safe” zones 4G (7 gigahertz).

Day 10 (November 7th)

Cell towers in the “kill” zone 35 gigahertz – At 35 gigahertz, electrons on oxygen are spinning and people begin to feel symptoms of oxygen deprivation (shortness of breath, dizziness, tiredness, and difficulty in breathing) but are not leaving “kill” zone. In all probability the media is telling them they have the corona virus. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 10-14 (November 7th thru 11th)

Cell towers in “kill” zone are 35 gigahertz – Extreme symptoms of oxygen deprivation. People are rushing to hospitals. By November 11th, ~75% of people are dead. Cell towers in the “safe” zones 4G (~7 gigahertz).

Day 15-17 (November 12th thru 14th)

Day 15, cell towers in the “kill” zone 50 gigahertz. By Day 16, ALL LIFE in the “kill” zone is dead. Inside “kill” zone there are “pockets” of “safe” zones. Deep inside the “safe” zones, people are still alive. (People living on the fringes of the “safe” zone are dead.) People who are alive deep inside the “safe” zones do not know they are now trapped inside the “safe” zone. Cell towers in the “safe” zones still 4G (~7 gigahertz).

Day 18-21 (November 15th thru 18th)

Day 18, “kill” zone towers cranked up to 60 gigahertz. Absolutely nothing will be able to survive in the “kill” zone now. People are still alive deep inside the “safe” zones. They believe they are safe. However, they begin to experience oxygen deprivation from the effect of the “kill” zone towers’ 60 gigahertz frequency. “Safe” zone towers are still at 4G (~7 gigahertz).

Day 19 the same day “safe” zone people witness “kill” zone holocaust, “safe” zone towers are cranked up to 35 gigahertz. Terrorized and traumatized, “safe” zone people are feeling the full effect of oxygen deprivation. People panic as they realize they are trapped in a “kill” zone. Some try to escape out of the “kill” zone, only to be “cooked” alive by the “kill” zone towers’ 60 gigahertz frequency, an even more horrible and painful death than if they had stayed.

Day 20, painfully suffering from severe oxygen deprivation, the few remaining “safe” zone people are filled with anxiety and despair, as they realize they are dying and will share the same fate as those who were incinerated in the “kill” zone on Day 19th.

Day 21, ALL LIFE in the entire “kill” zone is dead. The “safe” zone meters are cranked up to 60 gigahertz. All houses and buildings in the “safe” zone immediately explode, ignite and burn and are reduced to ashes.

Day 22-50 (29 days)

Day 22, cell towers in the “kill” zone are cranking out 60 gigahertz frequency. Soon, all plant life in the “kill” zone will be “cooked” and dead. Anyone attempting to enter the “kill” zone will die within two days.

Day 50, the cell towers in the “kill” zone are shut down. Not until 40 days have passed will the “kill” zone have enough breathable oxygen to sustain life.
